

Craft Club

March 2017

Dear Parents / Carers,

Does your child love to make things? Does there never seem enough time to plan, prepare and clear up craft activities at home? Then, maybe you would be interested in the Craft Club on Monday lunchtimes.

The club's aim is for children to have fun whilst exploring their natural creativity through:

- Trying out different craft techniques, such as sewing, paper craft, collage, decoupage, modelling, printing, beading,
- Hands on experience with a variety of materials (clay, paint, textiles...)
- Feeling the satisfaction of creating something for themselves
- Making craft projects to take home

Summer Term projects include

- Sock puppet (please hold on to those odd socks!)
- Up cycled milk jug elephant
- Pebble painting
- Father's day gift
- Silk Clay key ring

Benefits

Participating in craft can benefit children in many ways:

- relaxation and self expression
- learning self control and patience. (Glue and paint need time to dry.)
- developing co-ordination using both hands in different ways
- building confidence in problem solving - adapting things that go off-plan
- improving listening/concentration by following instructions
- growing social skills through talking about and sharing ideas
- feeling a real sense of achievement by having completed a project by themselves.

Booking

It costs £5.00 per session and will run for 9 weeks on the following dates:

Monday, 24th April, 8th 15th 22nd May, 12th, 19th 26th June, 3rd, 10th July (9 sessions).

If you would like to apply, please complete the form below and return it to the school office (by Wednesday 29th March) together with either a cheque (made payable to Ann Juncal) or cash for £45.00.

Please do advise me if your child is unable to attend a session.

Bring an apron

Your child will need to bring an apron or an old shirt to protect clothes. For safety reasons please ensure long hair is tied back and shoes have covered toes.

All the craft materials and equipment will be provided. This term will be asking the children to bring in things they have collected for up cycling including smooth pebbles, odd socks, and containers.

Yours sincerely,

Ann Juncal
